

Illinois Green Product Environmental Disclosure

Voluntary Renewable Energy Credit Purchasing

Brighten Energy purchases renewable energy credits (RECs) to offset 100% of its Green product customers' electricity usage. Brighten Energy does not expect to pair any RECs from generators located in the State of Illinois and has not committed to any particular locations of generators or types of RECs at this time. As a result, below please find information regarding Brighten Energy's Green product procured for the previous period of January 1, 2020 - December 31, 2020. The percentages listed below are above and in addition to any RECs procured by your utility to comply with the Illinois Renewable Portfolio Standard.

REC Type	REC Generation Location	Percentage
n/a	Illinois	0%
Wind	New Mexico	100%
Total Voluntary REC Percentage Purchased by Brighten Energy		100%
