Dynergy Energy Services (East), LLC d/b/a Brighten Energy purchases Renewable Energy credits (RECs) equal to the net electricity delivered to customers who choose renewable energy or “green” electricity plans. Customers should refer to their supply agreement regarding the percentage of their usage that is associated with renewable energy. Additionally, Brighten Energy purchases RECs to comply with the renewable energy resource benchmark under the State of Ohio’s alternative energy portfolio standard requirements. The requirement for 2021 is 5.5% renewable. The renewable energy sources associated with green electricity plans may include, but not be limited to, RECs from wind, solar, biomass, hydro, or other renewable energy sources. With in-depth analysis, the environmental characteristics of any form of electric generation will reveal benefits as well as costs. For further information, contact Brighten Energy at [www.BrightenEnergy.com](http://www.BrightenEnergy.com) or by phone at 833-239-3388.
