

UNIFORM DISCLOSURE STATEMENT

Rates and Product Information	
Price (in cents/kWh) and number of months this price stays in effect	Refer to your Renewal Postcard
Other monthly charges	
Total price with other	
monthly charges	
Length of contract	
Early Termination Fees and Contract Renewal	
Early Termination Fee	There is no early termination fee.
Automatic Contract Renewal	You will be sent a renewal notice between 30 and 60 days prior to the end of the initial term and each subsequent term notifying you of the adjusted price and any other changes to the terms and conditions of this agreement for a subsequent term. This agreement will automatically renew for a term no greater than your initial term or a month-to-month term as described in the renewal notice.
Right to Rescind and Cancel	
Rescission Period	You have a right to rescind (stop) your enrollment within ten (10) calendar days after your utility has received your order to switch suppliers. You may call us at (844) 359-1777 or your Utility at (800) 334-7661 to accomplish this.
Cancellation	You also have the right to terminate the contract without any termination fee or penalty if you contact us at (844) 359-1777 within ten business days after the date of your first bill with charges from Brighten Energy.

This is a sales solicitation and the seller is Brighten Energy, an independent retail electric supplier. If you enter into a contract with the seller, you will be changing your retail electric supplier. The seller is not endorsed by, representing, or acting on behalf of, a Utility program, a governmental body or a governmental program, or a consumer group or a consumer group program (unless the RES has entered into a contractual arrangement with the governmental body and has been authorized by the government body to make the statements). If you have any concerns or questions about this sales solicitation, you may contact the Illinois Commerce Commission's Consumer Services Division at 1-800-524-0795. For fraudulent inquires or complaints, you may contact the Illinois Attorney General Consumer Fraud department at 800-243-0618 (Spanish Language hotline: 866-310-8398). For information about the electric supply price of your electric DSP and offers from other retail electric suppliers, please visit PlugInIllinois.org.

One Renewable Energy Certificate ("REC") represents 1,000 kWh or 1 MWh of electricity from an eligible renewable energy generating facility. A REC will include all additional environmental attributes</p>

nationally recognized REC tracking system. For avoidance of doubt, all RECs retired will be noted in the tracking system as retired for voluntary election and will not be counted toward or otherwise associated with Brighten Energy's renewable portfolio standard (RPS) compliance requirements, when applicable.

Source of Renewable Energy Certificates: To the extent available, Brighten Energy will make commercially reasonable efforts to purchase RECs associated with the generation of electricity from wind and/or solar power generators located within the United States. At this time Brighten Energy has not committed to purchasing RECs exclusively from generators located in Illinois but this does not limit Brighten Energy from making purchases from Illinois located generators.

"Renewable Energy Certificate", or "REC" means a certificate, credit, allowance, green tag, or other transferable indicia, howsoever entitled, created by a program or certification authority indicating generation of a particular quantity of energy, or product associated with the generation of a specified quantity of energy from a Renewable Energy Resource that has been built within the past 15 years. One REC represents 1,000 kWh or 1 MWh of electricity from an eligible renewable energy generating facility. A REC will include all additional environmental attributes associated with the generation of electricity, and those environmental attributes may, but need not be, verified or certified by the same or different verification authorities or certification authorities. The Parties agree and understand a REC is separate from the retail power being delivered but, nonetheless, constitutes value associated with the provision of retail power. Retirement of the associated RECs will occur during the first quarter following the calendar year in which the customer purchased retail power.

associated with the generation of electricity, and those environmental attributes may, but need not be, verified or certified by the same or different verification authorities or certification authorities. You agree and understand a REC is separate from the retail electricity being delivered but, nonetheless, constitutes value associated with the provision of retail electricity.
